BLOODY MARY

Definition: a cocktail consisting essentially of vodka and usually spiced tomato juice. The Drink is named after Queen Mary Tudor and her bloody reign against Protestants in England in the 1500s. Theorists claim that tomato juice represents the blood shed during this time and the fiery vodka illustrates Queen Mary Tudor's wicked means of executing her enemies.

Harry's Bar in Paris recently celebrated the 100th birthday of the Bloody Mary, the vodka - tomato juice cocktail believed to have been invented at the iconic watering hole in 1921.

"Many moons ago, we drank an extraordinarily good Bloody Mary in a bar in Bristol, and discovered the barman's secret was the terminally unfashionable local tippie, Bristol cream sherry, instead of vodka. It adds a subtle sweetness and richness to the drink and, as it turns out, it's not actually that original: Lindsey Bareham rinses the glass with sherry in her *Big Red Book of Tomatoes*, while Victoria Moore specifies bone-dry Fino sherry or the slightly fuller Amontillado sherry, saying that for her: "It's the sherry that really makes [the drink], bridging the gulf between the hot but clean spirit and the fruity tomatoes." So, your choice, vodka or sherry or vodka and sherry?"
